

Name: SUNDEEP A

SRN:PES1UG20CS445

ROLL NO : 48

SECTION:H

Comments:

- 1.We both DFS and BFS find the path from source to destination .
- 2.In theory BFS finds the shortest path from the source and destination
- 3.But if the path is long the BSF takes more time .
- 4.In the expense of more time BFS finds the shortest path.
- 5.DFS takes Less time and space complexity rather than BFS.
